The Securities Note has been approved by the Norwegian FSA, as competent authority under Regulation (EU) 2017/1129. The Norwegian FSA only approves this Securities Note as meeting the standards of completeness, comprehensibility and consistency imposed by Regulation (EU) 2017/1129. Such approval should not be considered as an endorsement of the Issuer that is the subject of this Securities Note.

New information that is significant for the Borrower or its subsidiaries may be disclosed after the Securities Note has been made public, but prior to the expiry of the subscription period. Such information will be published as a supplement to the Securities Note pursuant to Regulation (EU) 2017/1129. On no account must the publication or the disclosure of the Securities Note give the impression that the information herein is complete or correct on a given date after the date on the Securities Note, or that the business activities of the Borrower or its subsidiaries may not have been changed.

MiFID II product governance / Professional investors and ECPs only target market – Solely for the purposes of each manufacturers' product approval process, the target market assessment in respect of the notes has led to the conclusion that: (i) the target market for the notes is eligible counterparties and professional clients only, each as defined in Directive 2014/65/EU (as amended, "MiFID II"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the notes (a "distributor") should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS - The notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2002/92/EC (as amended or superseded), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation (EU) 2017/1129. Consequently no key information document required by Regulation (EU) No 1286/2014 (the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

1. Risk factors

All investments in interest bearing securities have risk associated with such investment. The risk is related to the general volatility in the market for such securities, varying liquidity in a single bond issue as well as company specific risk factors. An investment in interest bearing securities is only suitable for investors who understand the risk factors associated with this type of investments and who can afford a loss of all or part of the investment. Please refer to the Registration Document dated 19 November 2019 for a listing of company specific risk factors.

In each category below the Issuer sets out the most material risks with respect to investing in the bonds. In each category below, the Issuer sets out the most material risk in the Issuer's assessment, taking into the negative impact of such risk on the Issuer and the bonds and the probability of its occurrence.

Financial risk

Market risk is the risk that the value of the Loan will decrease due to the change in value of the market risk factors. The price of a single bond issue will fluctuate in accordance with the interest rate and credit markets in general, the market view of the credit risk of that particular bond issue, and the liquidity of this bond issue in the market. In spite of an underlying positive development in the Issuers business activities, the price of a bond may fall independent of this fact. Bond issues with a relatively short tenor and a floating rate coupon rate do however in general carry a lower price risk compared to loans with a longer tenor and/or with a fixed coupon rate.

KLP Boligkreditt AS has as of September 2019 issued NOK 7 billion of Covered Bonds and is a small issuer in the Norwegian Covered Bond market. No market-maker agreement is entered into in relation to this bond issue, and the liquidity of bonds will at all times depend on the market participants view of the credit quality of the Issuer as well as established and available credit lines.

Interest rate risk is the risk borne by the Loan due to variability of the NIBOR interest rate. The coupon payments, which depend on the NIBOR interest rate and the Margin, will vary in accordance with the variability of the NIBOR interest rate. The interest rate risk related to this bond issue will be limited, since the coupon rate will be adjusted quarterly according to the change in the reference interest rate (NIBOR 3 months) over the 5 year tenor (extendable up to 6 years). The primary price risk for a floating rate bond issue will be related to the market view of the correct trading level for the credit spread related to the bond issue at a certain time during the tenor, compared with the credit margin the bond issue is carrying. A possible increase in the credit spread trading level relative to the coupon defined credit margin may relate to general changes in the market conditions and/or Issuer specific circumstances. However, under normal market circumstances the anticipated tradable credit spread will fall as the duration of the bond issue becomes shorter. In general, the price of bonds will fall when the credit spread in the market increases, and conversely the bond price will increase when the market spread decreases.

Changes or uncertainty in respect of NIBOR and/or other interest rate benchmarks may affect the value or payment of interest under the listed bonds

The Listed bonds are linked to NIBOR. NIBOR and other benchmark rates are the subject of recent national and international regulatory guidance and proposals for reform including, without limitation, the Benchmark Regulation and certain other international and national reforms.

The regulation and reform of "benchmarks" may adversely affect the value of Notes linked to or referencing such "benchmarks"

Interest rates and indices which are deemed to be "benchmarks", (including NIBOR) are the subject of recent national and international regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Bonds linked to or referencing such a "benchmark".

The Benchmarks Regulation could have a material impact on any Bonds linked to or referencing a "benchmark", in particular, if the methodology or other terms of the "benchmark" are changed in order to comply with the requirements of the Benchmarks Regulation. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the "benchmark".

Risks relating to the covered bonds

Covered Bonds are obligations of the Issuer only

The Covered Bonds constitute obligations of the Issuer only, which have the benefit of a statutory preference under Chapter 11, Sub-chapter II of the Financial Undertakings Act in the Issuer Cover Pool. An investment in the Covered Bonds involves a reliance on the creditworthiness of the Issuer. The Covered Bonds are not guaranteed by the Bank or any other person.

In addition, an investment in the Covered Bonds involves the risk that subsequent changes in the actual or perceived creditworthiness of the Issuer may adversely affect the market value of the relevant Covered Bonds.

Credit ratings may not reflect all risks

Moody's has assigned an Aaa long-term rating to the Covered Bonds. Aaa rated bonds are judged to be of the highest quality, subject to the lowest level of credit risk. There is no guarantee that such rating of the Covered Bonds will be maintained or that such credit rating reflects the potential impact of all risks related to an investment in the Covered Bonds. Accordingly, a credit rating is not a recommendation to buy, sell or hold Covered Bonds and may be revised or withdrawn by Moody's at any time. Any such revision or withdrawal could adversely affect the market value of the Covered Bonds. The Issuer may, at any time, vary the rating agency or agencies from which credit ratings of the Covered Bonds are obtained or vary the number of credit rating agencies from whom credit ratings of the Covered Bonds are obtained.

Credit ratings may be subject to change

The Issuer's credit ratings are important to its business. There can be no assurance that Moody's will not downgrade the ratings of the Covered Bonds either as a result of the financial position of the Group or changes to applicable rating methodologies used by Moody's. Moody's evaluation of the Issuer may also be based on a number of factors not entirely within the control of the Issuer, such as conditions affecting the financial services industry generally. Any reduction in the ratings of the Issuer's debt instruments could adversely affect its liquidity and competitive position, undermine confidence in the Issuer, increase its borrowing costs, limit its access to the capital markets, or limit the range of counterparties willing to enter into transactions with the Issuer. Such development could have a material adverse effect on the Issuer's business, financial situation, results of operations, liquidity and/or prospects.

Risks related to the Issuer Cover Pool

There can be no assurance that the Issuer Cover Pool will be sufficient to pay in full the amounts payable under the Covered Bonds.

The Issuer has established a senior unsecured revolving credit facility with KLP Banken AS in order to ensure the Issuer has access to liquidity to meet its payment obligations in respect of all Covered Bonds then outstanding, including any principal, interest and any connected derivative agreements, for the next 12 months on a rolling basis, and for the previous 12 months on a rolling basis, for claims due, but not paid. During the life of the covered bond KLP Banken AS's credit risk can change and the ability to fullfill its obligations can be materially reduced.

If the Bondholder has voted directly for any of its nominee registered Bonds, the Bondholder's votes shall take precedence over votes submitted by the nominee for the same Bonds.

- (c) A repeated Bondholders' Meeting may only be convened once for each original Bondholders' Meeting. A repeated Bondholders' Meeting may be convened pursuant to the procedures of a Written Resolution in accordance with Clause 7.5 (Written Resolutions), even if the initial meeting was held pursuant to the procedures of a Bondholders' Meeting in accordance with Clause 7.2 (Procedure for arranging a Bondholders' Meeting) and vice versa.

7.5 Written Resolutions

- (a) Subject to these Bond Terms, anything which may be resolved by the Bondholders in a Bondholders' Meeting pursuant to Clause 7.1 (*Authority of the Bondholders' Meeting*) may also be resolved by way of a Written Resolution. - (f) Only Bondholders of Voting Bonds registered with the CSD on the Relevant Record Date, or the beneficial owner thereof having presented relevant evidence to the Bond Trustee pursuant to Clause 6.3 (*Bondholders' rights*), will be counted in the Written Resolution.
- (g) A Written Resolution is passed when the requisite majority set out in paragraph (f) or paragraph (g) of Clause 7.1 (*Authority of Bondholders' Meeting*) has been obtained, based on a quorum of the total number of Voting Bonds, even if the Voting Period has not yet expired. A Written Resolution will also be passed if the sufficient numbers of negative votes are received prior to the expiry of the Voting Period.

- (h) The effective date of a Written Resolution passed prior to the expiry of the Voting Period is the date when the resolution is approved by the last Bondholder that results in the necessary voting majority being obtained.
